

Plant Trees, Change Lives, Grow Your Brand

UK & Global Planting Projects | Photo & Video Proof | Corporate Partnerships

Why Gift a Tree Exists

Built from a personal journey and a desire to give something back.

Andy Fields & Panda

In 2018, I was diagnosed with aggressive head and neck cancer and was given just six months to live.

Thankfully, after extensive treatment, I received the all clear – and it completely changed how I viewed life, the environment and the future we leave behind for the next generation.

Gift a Tree was created from that experience.

What started as a personal mission to give something positive back to the world has grown into a project that helps businesses, communities and individuals create real environmental impact through tree planting.

Today, we support planting projects in the foothills of the Usambara Mountains in Tanzania, helping to restore landscapes, support local communities, educate children about the environment and create long-term sustainability.

We believe environmental action should be visible, meaningful and real – not just words on a website.

That is why we provide genuine planting projects, photo and video proof, and opportunities for businesses to visibly connect their brand with real-world environmental impact.

“We don’t just plant trees.

We help businesses become part of something real.”

- Andy Fields
Founder, Gift a Tree

What We Do

Corporate Partnerships
Monthly planting packages

Event & Campaign

Support

Turn events into meaningful environmental action.

Large-Scale Planting

Thousands of trees planted with proof.

Educational Projects

Supporting sustainability education for future generations.

Creating Visible Environmental Action

Your Brand On The Ground

We visibly connect your brand to real environmental action

Growing More Than Trees

Education & Community

Our projects help support environmental education and sustainability awareness within local communities, encouraging future generations to understand the importance of protecting forests, wildlife and the natural environment.

Supporting environmental education, sustainability awareness and future generations

Why Businesses Partner with Gift a Tree

Visible environmental action with genuine long-term impact.

Businesses today are increasingly expected to demonstrate meaningful environmental responsibility. Gift a Tree helps organisations create visible, measurable impact through real-world planting projects that customers, staff and stakeholders can genuinely connect with.

Brand Visibility

Show your environmental commitment through real planting projects, branded initiatives and visual proof that can be shared across websites, social media and marketing campaigns.

Customer & Employee Engagement

Environmental initiatives help strengthen customer perception while also creating positive engagement opportunities for employees and stakeholders.

CSR & Sustainability Support

Support ESG, sustainability and corporate responsibility goals through projects that contribute to biodiversity, reforestation and long-term environmental improvement.

Events & Campaign Enhancement

Turn exhibitions, campaigns and corporate events into meaningful environmental action by replacing disposable giveaways with real tree planting initiatives.

“People remember businesses that create genuine impact”
